Amendments to the Claims

This listing of claims replaces all prior versions, and listings, of claims in the application:

1.-108. (Canceled)

- (Currently amended) A GCTM-5 antibody or an antigen-binding portion thereof produced by a hybridoma having ECACC accession number 03101603, or an antigen-binding portion thereof.
 - 110-116. (Canceled)
- 117. (Currently amended) The GCTM-5 antibody or an antigen-binding portion thereof antigen-binding protein according to claim 109 wherein the GCTM-5 antibody or an antigen-binding portion thereof inhibits the binding of GCTM-5 antibody to a hepatic stem cell selected from the group consisting of: a hepatioblast; a hepatic stem cell; a hepatic progenitor cell; a pancreatic progenitor cell; a hepatic cancer cell; a pancreatic progenitor cell; a hepatic cancer cell; and a pancreatic cancer cell.
- 118. (Currently amended) The GCTM-5 antibody or an antigen-binding portion thereof antigen-binding protein according to claim 117 wherein the hepatic stem cell is a cell of the biliary epithelium.
- (Currently amended) The GCTM-5 antibody or an antigen-binding portion thereof antigen-binding protein according to claim 117 wherein the stem cell is proliferating.
 - 120. (Canceled)
- (Previously presented) A hybridoma that produces a GCTM-5 antibody of ECACC accession number 03101603.
 - 122.-169. (Canceled)
- 170. (Currently amended) A kit for detecting a cell marker, said kit comprising the GCTM-5 antibody or an antigen-binding portion thereof antigen-binding protein according to claim 109 which is capable of detecting a hepatic stem cell.
 - 171. (Canceled)

13576372.3 2

- 172. (Currently amended) The kit according to claim 170, wherein the GCTM-5 antibody or an antigen-binding portion thereof antigen binding protein is capable of detecting the hepatic stem cell GCTM-5 epitope on a cell selected from the group consisting of: a hepatoblast; a hepatic stem cell; a hepatic progenitor cell; a pancreatic stem cell; a pancreatic progenitor cell; a biliary epithelial cell; a hepatic cancer cell; and a pancreatic cancer cell.
- 173. (Currently amended) The kit according to claim 170, wherein the GCTM-5 antibody or an antigen-binding portion thereof antigen binding protein is capable of detecting the hepatic stem cell GCTM-5 epitope on a cell that is proliferating.
- 174. (Currently amended) The kit according to claim 170, wherein the GCTM-5 antibody or an antigen-binding portion thereof antigen binding protein is capable of detecting the hepatic stem cell GCTM-5 epitope in a biological sample including cell culture, tissue culture, conditioned medium, tissue sample, blood, serum, plasma and other bodily fluids and biopsy samples.

175-176. (Canceled)

- 177. (Currently amended) A kit for isolating a subpopulation of stem cells, said kit comprising the GCTM-5 antibody or an antigen-binding portion thereof antigen binding protein according to claim 109 for detecting cells expressing a GCTM-5 epitope, and a means to separate the cells detected by the antigen binding protein.
- 178. (Previously presented) The kit according to claim 177 for isolating a hepatic stem cell selected from the group consisting of: a hepatoblast; a hepatic stem cell; a hepatic progenitor cell; a pancreatic stem cell; and a pancreatic progenitor cell.
- 179. (Previously presented) The kit according to claim 177 for isolating a hepatic stem cell that is proliferating.
- 180. (Previously presented) The kit according to claim 177 for isolating a hepatic stem cell from a biological sample including cell culture, tissue culture, conditioned medium, tissue sample, blood, serum, plasma and other bodily fluids and biopsy samples.

181-182. (Canceled)
